

# Wigging ...

1. Glue a realistic hairline on doll's head.
2. Tie a knot into the viscose.
3. Glue knot at base of her hairline, and let dry.
4. Mist the remaining length of hair, and twist and twist and twist the hair into snakey ropes, and press down into the glue.

Repeat until the head is covered with hair.

5. Next tightly twist/wrap damp viscose around knitting needle - approx size 4. Clamp on with flat iron to set. When cool slide curl off rod.

6. With two pins, gently pick apart hair. Cut small sections off and glue/stack on her head to soften those snakey ropes.
